

Ventana Plant Science

[hello@ventanaplant.science - instagram.com/ventanaplantscience/](https://www.instagram.com/ventanaplantscience/)

Thank you for your interest in Radix, the laboratory grade plant rooting stimulator. Radix has been carefully developed to include humic, fulvic, amino acids, protein hydrolysate, and a few other proprietary ingredients that act as beneficial natural biostimulants.

Radix: taking the guesswork out of what you put in your plants.

INCLUDES BUT NOT LIMITED TO:

Aspartic acid
Humic acid
Nitrogen
Phosphate (P2O5)
Threonine
Cobalt (total)
Potash (K2O)
Serine
Boron
Copper
Glutamic acid
Proline
Sulfur
Glycine
Alanine
Cystine
Magnesium
Sodium
Valine
Methionine
Zinc
Calcium
Isoleucine
Leucine
Manganese
Tyrosine
Phenylalanine

Lysine
Histidine
Arginine
Tryptophan

DEVELOPED TO HAVE NO HEAVY METALS:

Arsenic
Cadmium
Cobalt
Boron
Lead
Mercury
Molybdenum
Nickel
Selenium
Manganese
